

MANDATE AND MISSION STATEMENT FOR DIVINE TOUCH MISSION MINISTRIES

We believe the Lord has called us to influence Africa in the following areas:

- 1) To model the Apostolic/Prophetic style leadership team within the covenant of marriage to the Christian and non-Christian community.
- 2) Laying a foundation of worship/intercession that will aid in re-digging the healing wells of John G. Lake and reclaim the ancient gates and doorways in and over the nation of South Africa.
- 3) To minister the Spirit of adoption to the orphaned children; offer practical help and support to the children widows/gogos through already established home based care Christian organizations:
 - a) Build, equip and staff places of safety for orphaned/abandoned/abused children
 - b) Incorporate distribution centers for food/clothing/resources for the community through home based care.
- 4) We will execute the mandate from the Lord by imparting and releasing the word of the Lord as He directs. We will do this specifically, the "Justice Mandate" for South Africa. (Copy attached)
- 5) To continue providing ministry and counseling to traveling missionaries from the missionary hospitality house in Nelspruit, South Africa.

6) To instruct (correct, discipline), teach (release information), train (practical guidance) and equip (impartation & activation)

believers to fulfill their destiny in Christ. For this, the Lord has given us three keys: 1) Correction 2) Direction 3) Protection

7) To promote and model racial unity within the body of Christ and the nation; through our consistent witness of relationship with the Lord and each other; through biblical preaching and teaching.

We know that it will take a sovereign move of God to transform this and other nations on the continent Africa. It is to this end we serve to lay several foundations in righteous deeds and random acts of compassion.
